HOWARD PARK CABERNET SAUVIGNON 2000

"This is 100% cabernet, making it the first not to include merlot and/or cabernet franc since 1988. Also, for the first time, the wine, which has always been a blend of regions, is predominantly from Margaret River, with the remaining 24% coming from the Great Southern region.

It's also the best Howard Park cabernet I've tasted for a few vintages: really intense, dense, varietal (superbly concentrated cassis), and with firm structure, length of flavour and finesse to see it age comfortably for a decade or two. Serious cabernet."
